

VE CUSTOM MARQUEE

- 500D waterproof fabric (PU coated, flame retardant, with UV99 silver coating)
- The roof and wall are full colour dye sublimation/screen printing, for vivid colour and fade prevention.
- Frame is made of 40mm x 40mm aluminium pipe with 6 angles (1.2 to 1.5mm thick)
- The outdoor pop printed tent canopies and valances consist of a water-resistant polyester fabric.
- The collapsible design enables two people to assemble the unit in just two minutes.
- The printed tent is very portable and even includes a black carrying bag for the aluminium frame.
