

Mirage® Plus Pop-Up Display

High-Tech Carbon Composite Construction

exhibiting solutions

The Industry's Premier Pop-Up: Mirage® Plus Display

Unmatched Frame Durability

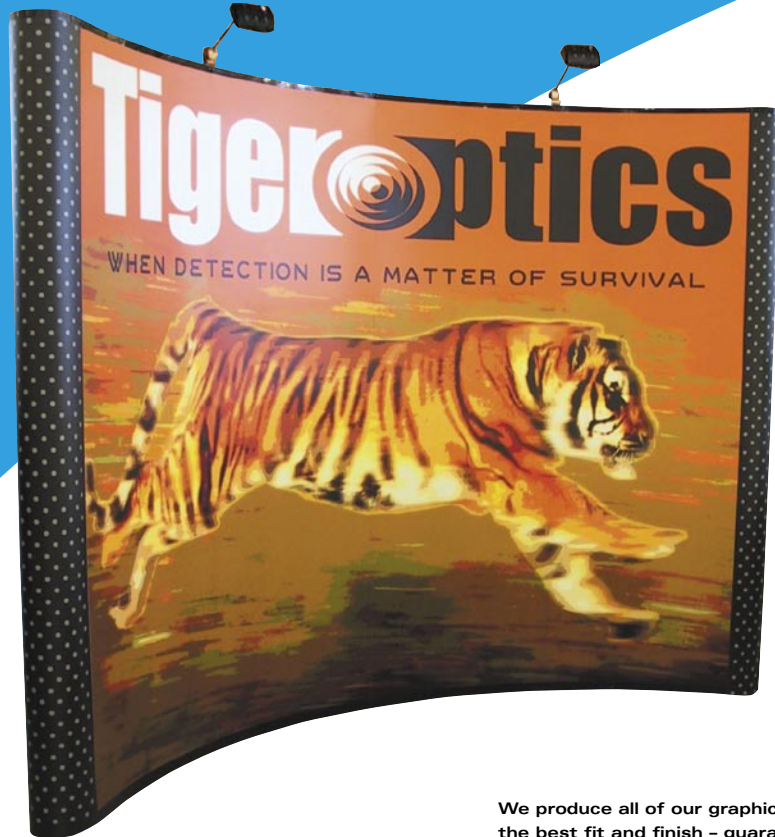

Mirage Plus' high-tech carbon rods flex without breaking or kinking. Its durable frame performs every time and won't leave you stuck at a show with a frame that's damaged or bent. That's peace of mind.

Quick and Easy to Install

Our lightweight, self-locking frame instantly pops up and into place with no additional connectors. Panels simply attach with magnets.

Entice Customers and Prospects

Skyline Genuine Graphics are the highest quality in the industry. You'll always look professional with compelling graphics that are built to last.

We produce all of our graphics in-house for the best fit and finish – guaranteed.

The very best pop-up frame. Period.

Mirage Plus is the only pop-up with a carbon composite frame. It's strong, durable and lightweight. Best of all, if our flexible frame is impacted, it bounces back without damage – unlike any other pop-up.

Mirage frame and channels are backed with a lifetime warranty!

Mirage Display Hardware

1 Unique triangulated frame
Frame 'triangulation' prevents warping and panel gaps even on non-level show floors.

2 Polarized channel magnets
Multiple strips of alternating polarization 'snap' panels into perfect alignment.

3 Transporter cases
Specialised compartments protect valuable exhibit components during shipping and storage.

4 Exact-fit panels

Skyline panels – both fabric and graphic – are computer cut to a tolerance of 3/1000 of an inch.

5 Cost-efficient case table

Transform your display cases into a table. You get additional work surface and branding opportunity.

6 Fabric colour choices

Fabric panels are available in a variety of colours and are compatible with detachable graphics.

Convenient Mirage Plus tabletops provide a professional look for smaller spaces.

7 Expanded design options
Mirage Plus works seamlessly with other Skyline systems – expanding design possibilities.

8 Eye-level backlit graphics
Mirage Plus can accommodate backlit graphics at eye-level – not just top, center or bottom.

9 Merchandising accessories
A variety of accessories like shelving, peg bars, and apparel racks effectively display your products.

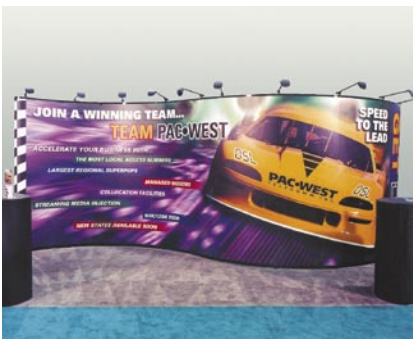

Mirage® Plus

Marquee Header brings your name or message into prominence and can be backlit for extra 'pop.'

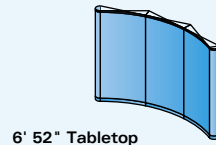

Mirage Plus Bubble Panel commands attention with a full-panel, backlit graphic.

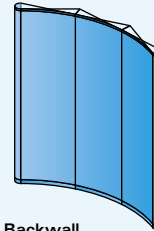

Mirage Plus units connect seamlessly to create in-line exhibits of 20' or more.
